Audit of the Air Pollution Control Trust Fund Fiscal Year 1999-2000

Report by the Office of County Comptroller

Martha O. Haynie, CPA County Comptroller

County Audit Division

J. Carl Smith, CPA Director

Christopher J. Dawkins, CPA Deputy Director

> Scott H. Dezort, CPA Audit Supervisor

> > Report No. 297 January 2001

January 25, 2001

Richard T. Crotty, County Chairman and Board of County Commissioners

We have conducted a review of the Air Pollution Control Trust Fund for the year ended September 30, 2000. The audit scope was limited to reviewing revenues and expenditures to ensure compliance with the requirements of Chapter 320.03 of the Florida Statutes. This chapter requires that the County certify the following:

- All registration fee monies remitted by the Florida Department of Environmental Protection were deposited into the County's Air Pollution Control Trust Fund.
- 2) All registration fee monies expended by the County's air program were used solely for air pollution control purposes specified in the aforementioned code ruling.
- 3) During the 1999-2000 fiscal year, the County's funding of air pollution control activities exceeded its funding of the same during the program's inception year.
- 4) Withdrawals from the local trust fund were exclusively made by the Orange County Air Pollution Control Program.

The Orange County Pollution Control Program was started during the 1983-84 fiscal year. Current funding for the program is remitted to the County by the Florida Department of Environmental Protection (FDEP). In addition, as stated above, the County must continue to contribute additional funding equal to the amount provided in the program's inception year. The amount of funding provided by FDEP is based on the number of license tags issued in the County. The County receives fifty cents for each license tag issued in the County. The money remitted by the FDEP is to be used exclusively to fund air pollution control activities conducted by the County's Environmental Protection Division. Our review was made in accordance with generally accepted government auditing standards and included such procedures as we

considered necessary in the circumstances. In this regard, we reviewed applicable laws and regulations, and revenues and expenditures of the Air Pollution Control Trust Fund.

In our opinion, the County is in compliance with Chapter 320.03 of the Florida Statutes. As such, we have notified the FDEP of the results of our review. During the course of this review we noted no areas of noncompliance or significant areas needing improvement. We commend the Environmental Protection Division for their efforts.

Our review was limited to the specific matters described earlier and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.
