(f) The Company has requested that the Authority enter into this Memorandum of Agreement for the purpose of declaring the Authority's intention to provide financing to pay all or a portion of the cost of the Project.

In addition to, and notwithstanding, the aforesaid obligation to provide such financial statements, until the sale of the Bonds, the Company will, within ten (10) days after its occurrence, notify the Authority of any material change, whether or not adverse, in the business, operations or financial condition of the Company or any of the Principals. In the event the Authority shall, at any time prior to sale of the Bonds, determine in its sole discretion that there has been a material adverse change in the business, operations or financial condition of the Company or any Principal, whether or not such determination is based upon financial statements or notices provided by any of them in accordance herewith, the obligation of the Authority to issue and sell the Bonds shall, at the option of the Authority, be terminated.

Section 3. The Authority will, at the proper time, and subject in all respects to the prior advice, consent and approval of the Company, submit applications, adopt such proceedings and authorize the execution of such documents as may be necessary and advisable for the authorization, sale and issuance of the Bonds and the acquisition of the Project, all as shall be authorized by law and mutually satisfactory to the Authority and the Company.

Section 4. The Bonds issued shall be in such aggregate principal amount, shall bear interest at such rate or rates, shall be payable at such times and places, shall be in such forms and denominations, shall be sold in such manner and in such time or times, shall have such provisions for redemption, shall be executed, and shall be secured, all as shall be authorized by the Act and all on terms mutually satisfactory to the Authority and the Company.

Section 5. The Authority will use and apply the proceeds

of the issuance and sale of the Bonds, or cause such proceeds to be used and applied, to the extent of such proceeds, to pay the cost of the Project, and will sell the Project to the Company pursuant to a sale agreement requiring the Company to make payment for the account of the Authority of purchase price installments sufficient to pay all of the interest, principal, redemption premiums (if any) and other costs due under and pursuant to the Bonds when and as the same become due and payable (in lieu of a sale agreement, the Authority and the Company may enter into a loan agreement providing for such payment); to operate, repair and maintain the Project at the Company's own expense; to pay to the Authority a processing and administrative fee of one-half of one percent of the principal amount of the Bonds upon the issuance and sale thereof (provided, however, that the aggregate amount of such fee shall not exceed \$10,000); to pay all other costs incurred by the Authority in connection with the financing, construction and administration of the Project which are not paid out of the Bond proceeds or otherwise for so long as any of the Bonds remain outstanding, and, in the event that there is a sale agreement, for the conveyance to the Company of all rights, title and interest of the Authority in and to the Project when all of the obligations of the Company under the sale agreement have been performed and satisfied.

Section 6. Having determined that the purposes of the Act would be more effectively served, the Authority hereby engages the services of the Company as an independent contractor of the Authority, and the Company hereby accepts such engagement, for the acquisition, construction and equipping of the Project, it being understood and agreed that the Company shall provide all services incident to the acquisition, construction and equipping of the Project (including, without limitation, the preparation of plans, specifications and contract documents, the award of contracts, the inspection and supervision of work performed, the employment of engineers, architects, builders and other contractors) and that the Company shall pay all costs of the Project, subject to reimbursement by the Authority upon the issuance and sale of the Bonds and the use and application of the proceeds thereof as provided above. It is expected that the Project will cost approximately Four Million (\$4,000,000) Dollars, exclusive of interest during the period of construction and inclusive of underwriting discount or commissions, and legal, accounting, financing and consulting expenses. The Company agrees that to the extent that the proceeds derived from the sale of the Bonds are not sufficient to complete the Project, the Company will supply all additional funds which are necessary for the completion of the Project. So long as this Memorandum of Agreement is in effect, all risk of loss to the Project will be borne by the Company.

Section 7. At or prior to the time of issuance and sale of the Bonds, the Authority will enter into an Indenture with a corporate trustee or bank to secure the Bonds, whereby the

Authority's interest in the Project, the sale agreement (or loan agreement) with the Company, and all fees, rents, charges, proceeds from the sale of the Project, and other funds and revenues in respect of the Project will be pledged and assigned to such trustee or bank or held by such party in trust, for the benefit of the holders, from time to time, of the Bonds.

(d) The Company and the Principals shall have provided a satisfactory opinion of counsel for the Company and the Principals with the respect to the due organization, existence, qualification to do business in various jurisdictions (including the State of Florida) and good standing of the Company, the power and authority of the Company and the Principals to own their respective properties (including the Project) and to carry on their business and activities (including those to be carried on, at or in connection with the Project), the due authorization and execution, and delivery of any agreements to which the Company or the Principals are a party, the Indenture and related agreements, instruments and documents, their legality, validity, binding effect and enforceability in accordance with their respective terms, and the absence of any violation of law, rule, regulation, judgment, decree or order of any court or other agency of government or of the certificate of incorporation, bylaws, and agreements, indentures or other instruments to which the Company or Principals are a party or by which they or any of their property is or may be bound.

(e) The Authority shall have been provided, at the cost of the Company, a satisfactory opinion of its counsel with respect to the due organization and existence of the Authority and that all necessary proceedings in connection with the authorization, issuance and sale of the Bonds and the other transactions of the Authority contemplated hereby have been properly conducted in accordance with applicable law.

(i) The Company shall have furnished satisfactory plans and specifications for the Project, in reasonable detail, showing that the Project complies in all respects with the requirements of law.
