RESOLUTION NO. _____

A RESOLUTION SETTING FORTH PRELIMINARY AMENDMENTS TO THE SEWER ENVIRONMENTAL CONSERVATION FEE RESOLUTION; SETTING FORTH A PRELIMINARY REVISED SEWER CONNECTION FEE SCHEDULE; AUTHORIZING A PUBLIC HEARING TO CONSIDER THE PROVISIONS OF THIS RESOLUTION; PROVIDING AN EFFECTIVE DATE.

PREMISES

1. The Board of County Commissioners adopted a Sewer Environmental Conservation Fee of Six Hundred (\$600.00) Dollars per equivalent residential unit connection by Resolution dated December 1, 1980, as amended by Resolution dated April 14, 1981.

2. Section 2 of the Sewer Environmental Conservation Fee Resolution provides that for purposes of calculating and imposing the Environmental Conservation Fee, the equivalent residential unit value for any particular connection shall be calculated and imposed in the manner provided for in the Orange County Wastewater and Pollution Control Rate Schedule.

3. It is the Board's intent that the language of Section 2 be amended to clearly indicate that the County Rate Schedule as amended will be used to calculate and impose the Sewer Environmental Conservation Fee.

4. The County's current Sewer Rate Schedule provides that an equivalent residential unit assumes a flow of 350 gallons per day from a single family residential unit.

5. At present, the Florida Department of Environmental Regulation uses a figure of 300 gallons per day as the assumed flow for a single family residential unit connection.

6. The Board wishes for its sewer regulations to be consistent with state standards.
