SUBJ: **Construction of Speed Humps on Donovan Street**

At the request of the residents on Donovan Street, a speed hump survey was mailed to the property owners. This was to determine if the property owners supported the installation of speed humps on the street. If two-thirds of the returned ballots from the property owners were in favor of the speed humps, the County would install the speed humps.

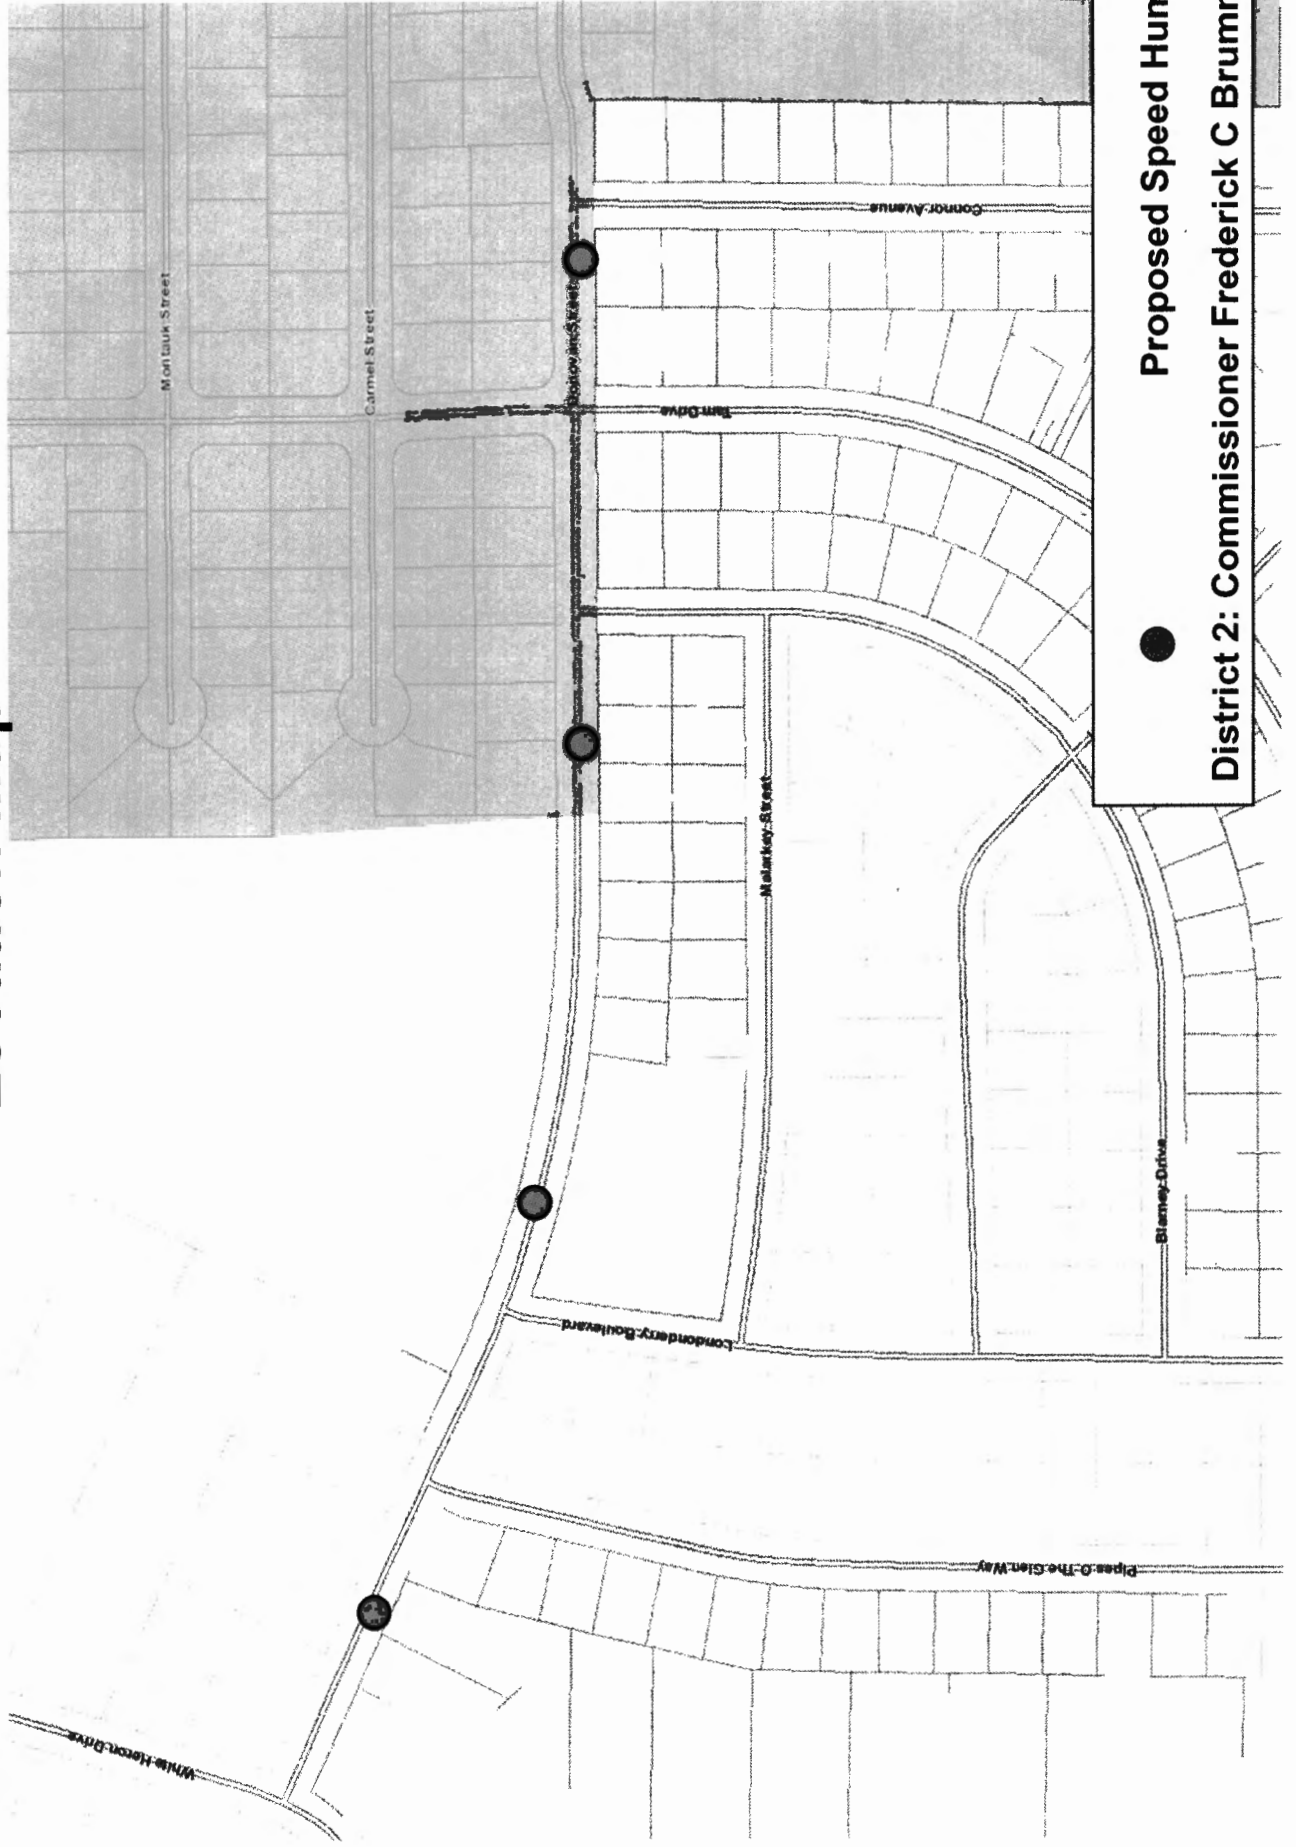

The result of the survey was that 88% of the returned ballots from property owners supported the installation of speed humps. The current plan is to install four speed humps on Donovan Street between White Heron Drive and Connor Avenue. The project is being funded by Pine Hills Safe Neighborhoods and Public Works.

**Action Requested: Approval to construct speed humps on Donovan Street between White Heron Drive and Connor Avenue. District 2.**
