SUBJECT: January 6, 2015 – Work Session
Chapter 31.5 Sign Standards

The Zoning Division has been working on updates to the County's land development regulations related to Chapter 31.5, Sign Standards. Staff conducted two work sessions with the Board on September 10, 2013 and September 24, 2013, providing a general overview of the County's sign regulations, as well as a discussion regarding recent concerns regarding changeable copy LED signs, brightness, and copy area.

On January 6, 2015, staff will provide an update on the amendments to the code. The proposed amendments include a collection of changes addressing new technology, consolidation of various sign standards, as well as updates to outdated code provisions. Many of the changes provide additional flexibility for signage on large projects, including those in the International Drive corridor.

This item is for informational purposes only; no action is required by the Board.
