SUBJ: **Construction of Speed Humps in Cox L C Addition Subdivision**

At the request of the residents in the Cox L C Addition Subdivision, commonly referred to as Little Egypt, a speed hump survey was mailed to the property owners. This was to determine if the property owners supported the installation of speed humps in Little Egypt. If two-thirds of the returned ballots from the property owners were in favor of the speed humps, the County would install the speed humps.

The result of the survey was that 90% of the returned ballots from property owners supported the installation of speed humps. The current plan is to install speed humps on W. South Street, Rogers Street, Huppel Avenue, and College Drive. The project is being funded by Commission District 6 and Public Works.

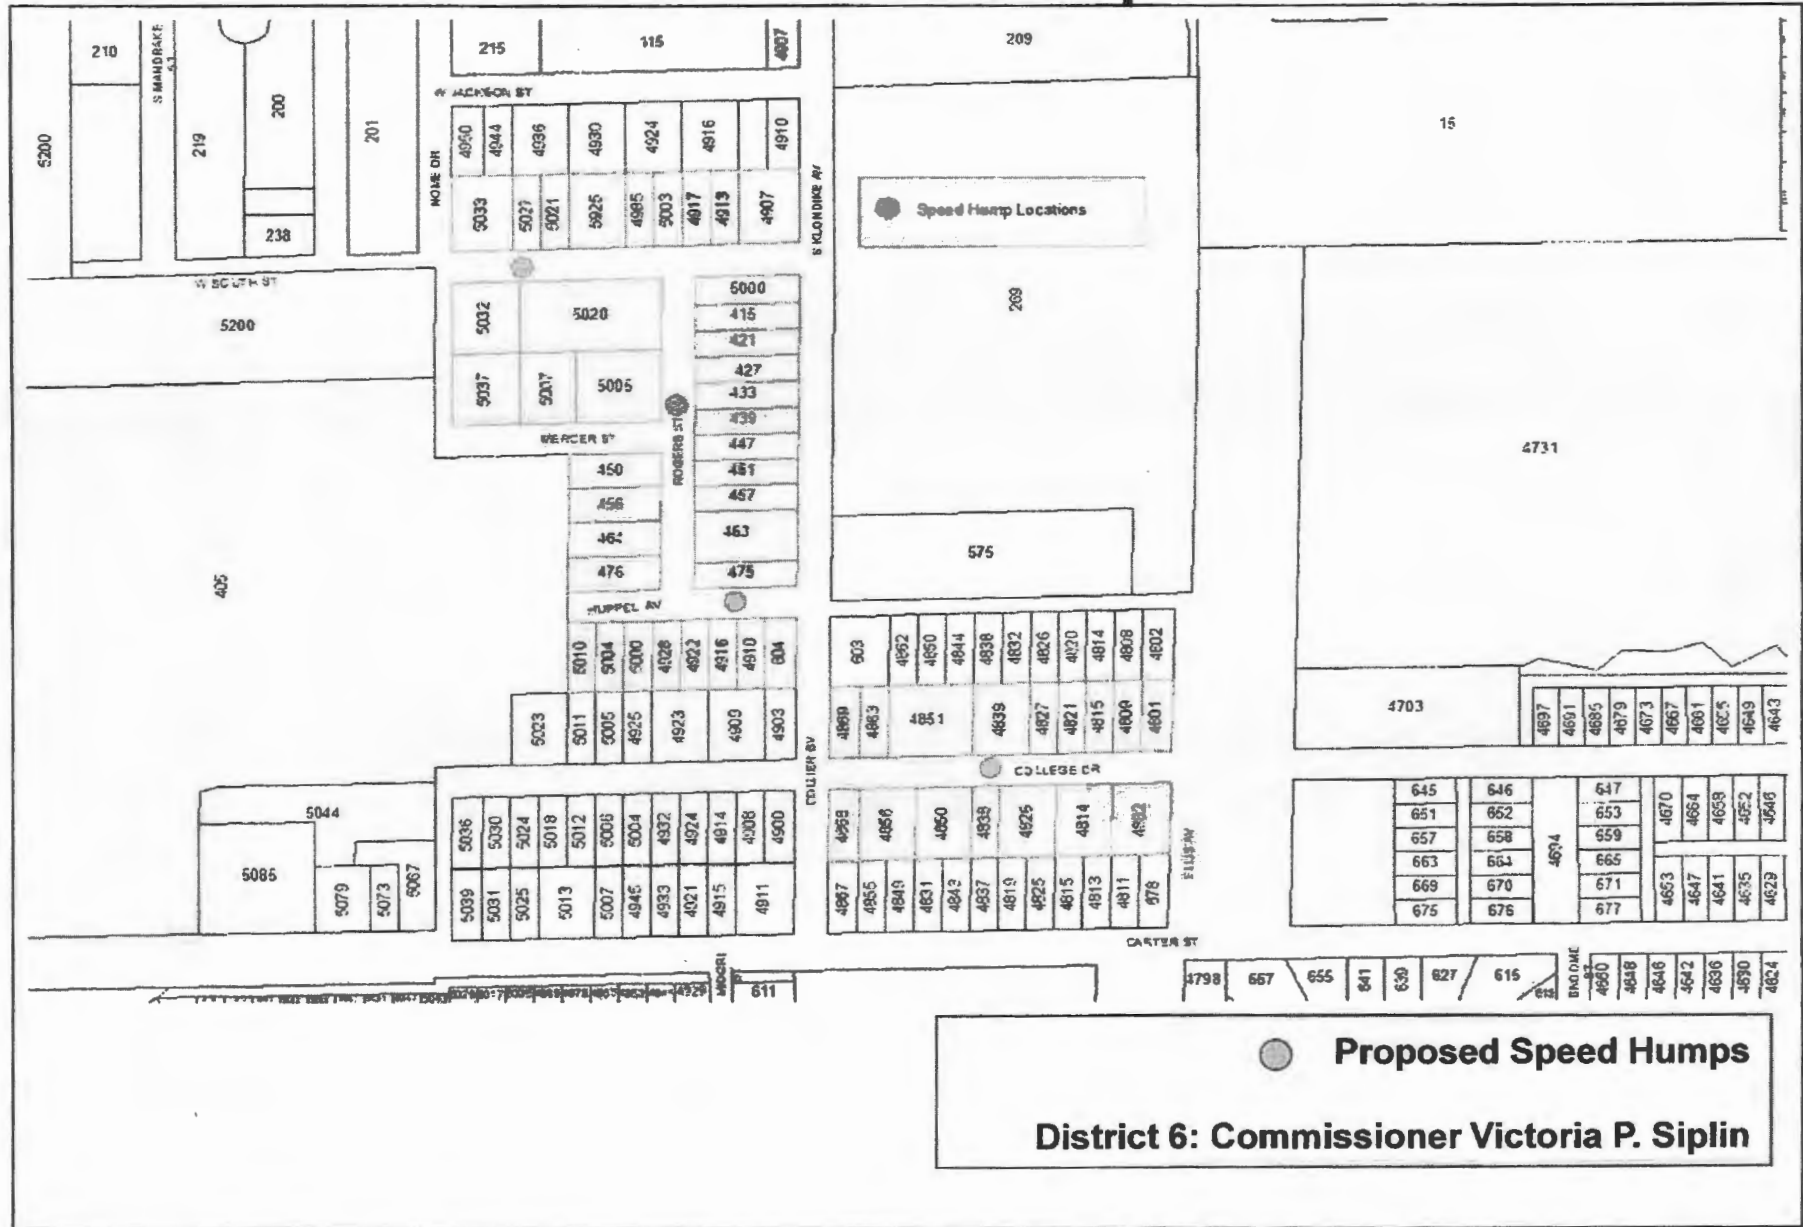

Action Requested: Approval to construct speed humps in Cox L C Addition Subdivision. District 6.
