SUBJ: **Construction of Speed Humps on Davenport Road, Seidner Road, and Williams Road**

At the request of the residents on Davenport Road, Seidner Road, and Williams Road, a speed hump survey was mailed to the property owners. This was to determine if the property owners supported the installation of speed humps on Davenport Road, Seidner Road, and Williams Road. If two-thirds of the returned ballots from the property owners were in favor of the speed humps, the County would install the speed humps.

The result of the survey was that 82% of the returned ballots from property owners supported the installation of speed humps. The current plan is to install eight speed humps on Davenport Road, three speed humps on Seidner Road, and two speed humps on Williams Rd. The project is being funded by Commission District 1 and Public Works.

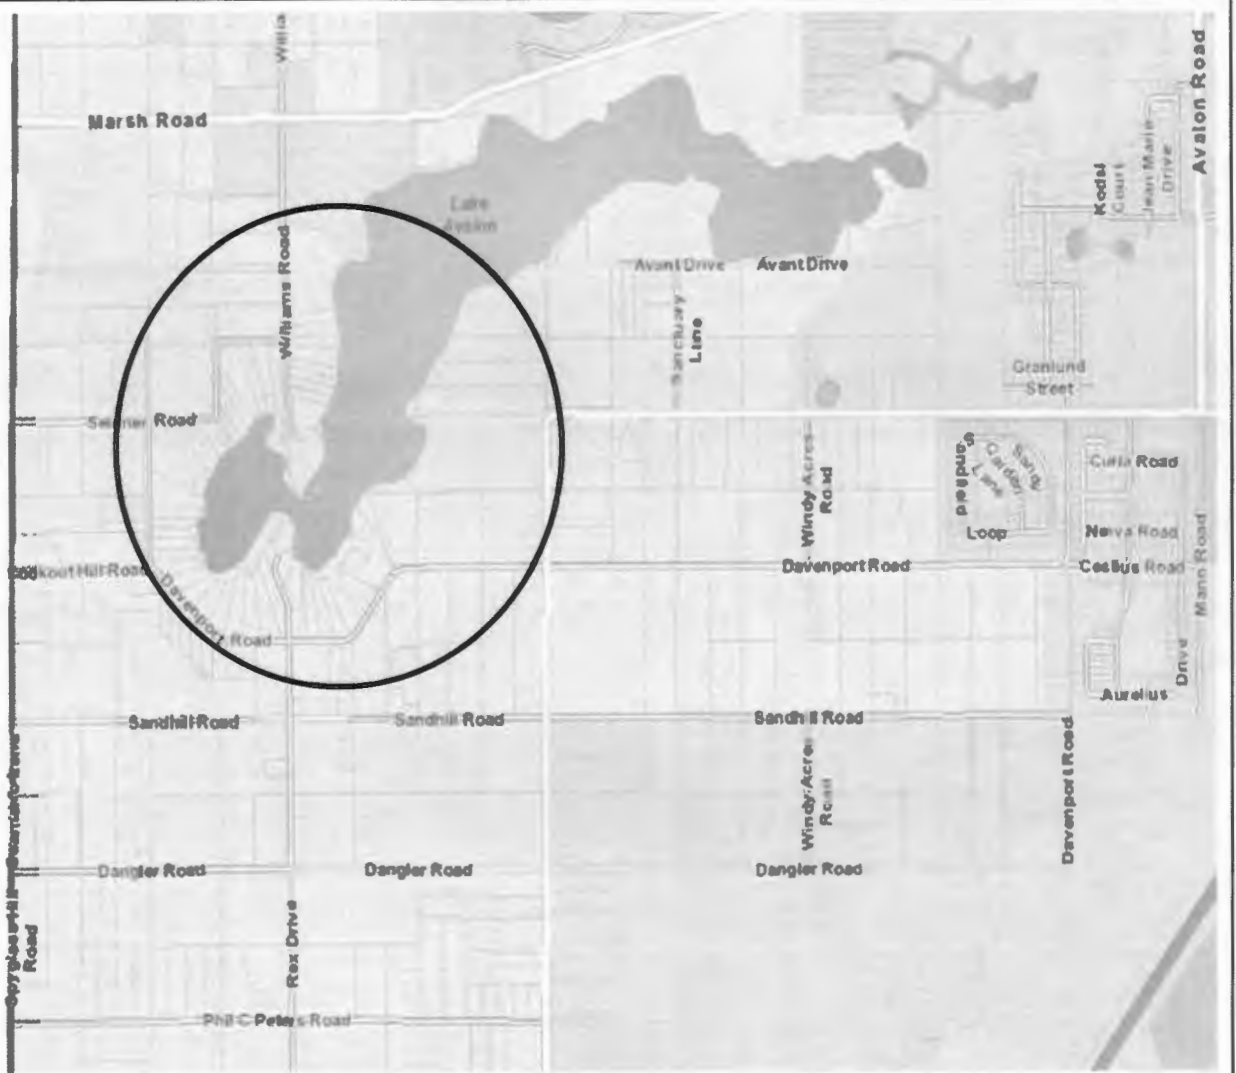

**Action Requested: Approval to construct speed humps on Davenport Road, Seidner Road, and Williams Road. District 1.**
