Good Morning Commissioner,

Due to personal reasons I can not make the afternoon session of the meeting per your request you asked I bullet point the bear area changes.

Advanced Disposal has made some changes in times see attached, but there is a substantial area that needs an entire reroute of the county or 2 to 3 days. In doing so this will cut down on routing efficiency. I am working with county staff to come up with some alternatives to the challenge. I know you are looking at bear proof containers and that would be an option. The transfer station closes at 3:30 and in order for us to make the dump deadline we need to start on time. If the dump allowed us to bring in the disposal a little later we could start at 7 instead of 6.

Please let me know if you have any questions I will be on leave the next two weeks and be back May 11 and would like to meet and discuss with county staff as well.

Attached is the map of area and the homes effected.

Thank you,
Regina

AFTER 8:00 PM

2016 Rock Springs Garbage Routes

MONDAY
 with 6442 total homes
 MONDAY 2709 HOMES IN BEAR AREA
 Problem Route in bear whole can't fix unless entire zone - 2 days.

Advanced Disposal committed to help with bear area need to work with staff for alternatives as the square area has too many homes to mandate start time later. The areas we can start later we do. The dump cut-off time is 3:30 where most municipalities is 5:00 pm 3:30 does not give us enough time to start later. Bear area could be 7 AM start if dump could stay open later.

FRIDAY
 5 out of 7 routes in entire Bear Area can not start after 8 AM Needs Alternative servicing with locking devices.
 MONDAY 5180 HOMES IN BEAR AREA
 TOTAL HOMES MONDAY 7856
