Subject: Approval of Contract Y16-1102, Basic Construction Education Program for
Inmates

ACTION REQUESTED:

Approval of Contract Y16-1102, Basic Construction Education Program for Inmates with Valencia College for a 1-year term in the total contract award amount of \$200,800.

PROCUREMENT:

This contract will provide a Basic Construction Education Program for inmates who are 8-10 weeks from release. Program services include classroom instruction and hands-on training.

FUNDING:

Funding is available in account number 1660-081-3820-3197.

APPROVALS:

The Corrections Department concurs with this recommendation.

REMARKS:

The Basic Construction Education Program will provide a basic construction reentry program for inmates housed at Orange County Corrections. Over nine billion dollars of construction projects are planned in the Central Florida area over the next few years. This projected growth has created an excellent opportunity for correctional education and training to engage in the process of reducing recidivism. The construction field presents career opportunities that are diverse and potentially higher wages. Inmates receiving general education and vocational training are significantly less likely to return to jail/prison

after release. They are also more likely to find employment than peers who do not receive such opportunities.

Each session shall consist of 200 hours (40 hours per week for five weeks) of classroom and hands on instruction in the area of basic construction. Instructional staff, books, tools, equipment, safety gear and consumable materials will be provided by Valencia College. The contract amount is considered reasonable based on the evaluation and analysis of County technical staff.
